

Telkom SA SOC Ltd

Environmental Policy Statement

2023

Telkom

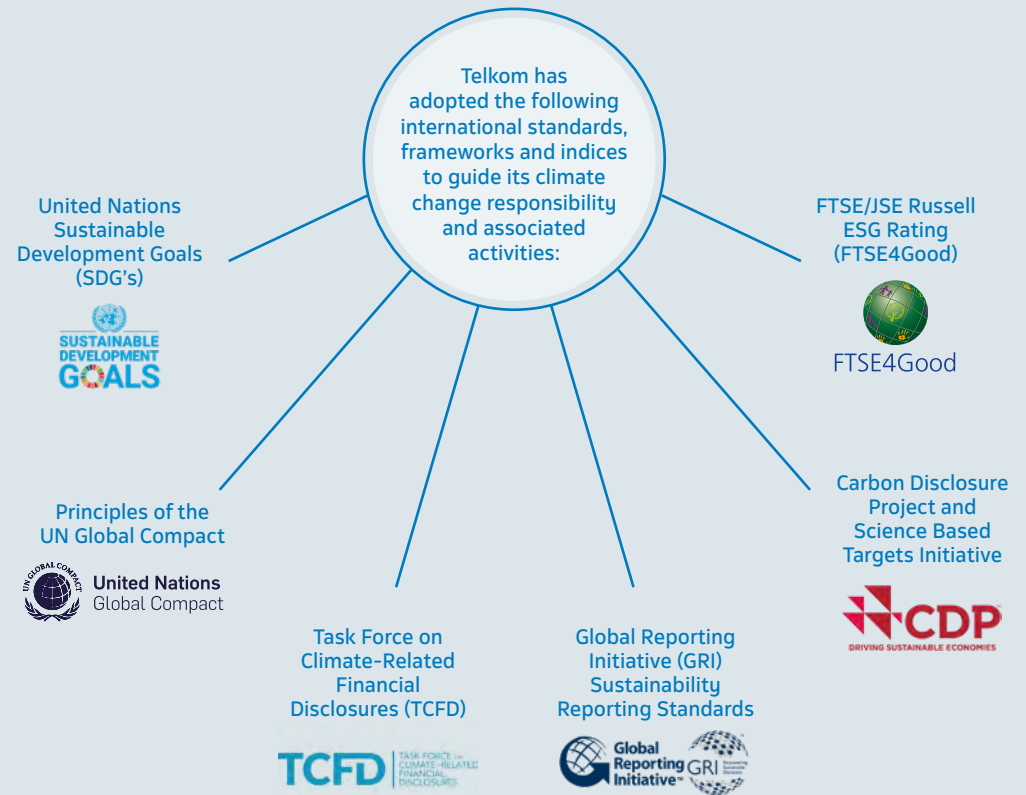

We deliver the Future of converged ICT solutions to create sustainable economic, environmental and social value for all

Telkom's Environmental Policy Statement is underpinned by the company's five core values of continuous improvement, honesty, accountability, respect and teamwork.

The company is committed to:

-  Becoming Carbon Neutral by 2035 and to achieve Net Zero Emissions by 2040.
-  Continuously improve our environmental activities through managing and reducing our environmental footprint including conservation initiatives to minimise the impact on the natural environment as well as promote environmental responsibility.
-  Continuously review, maintain and monitor our environmental performance by tracking the achievement of the annual performance targets and objectives.
-  Honestly and transparently report on our environmental, social and governance (ESG) performance and disclosures, and enhance these in line with best practice.
-  Take accountability for our environmental impact and promote the principles of a circular economy as well as encouraging the development and use of environmentally friendly technologies.
-  Respect the natural environment and apply a precautionary approach to environmental challenges.
-  Reduce our carbon emissions, pollution and waste as well as reduce our resource consumption. In addition, addressing ICT sector-related and other material impacts including but not limited to climate change, greenhouse gas emissions, energy, water and electronic waste.
-  Empower and enable our employees through ongoing environmental awareness and training. We believe that teamwork is required to effect change, and therefore we are committed to awareness creation and engagement with all stakeholders.
-  Participate in stakeholder engagement initiatives regarding the environment as well as provide effective channels through which environmental management issues can be communicated and engaged on, internally and with external stakeholders.
-  Comply with all environmental legislation and regulations of South Africa and other countries within which it operates.
-  Ensuring appropriate resources are allocated and delegation of authority to give effect to this policy.

This Environmental Policy Statement should be read in conjunction with our Climate Change Policy Statement, Corporate Citizenship Policy Statement and Human Rights Policy as we believe that all these areas of sustainability are inextricably linked.
